**Re: Erratum
Mobile Satellite Ventures LP
Ex Parte Presentation
WT Docket No. 05-157**

Dear Ms. Dortch:

On June 16, 2005, Mobile Satellite Ventures LP ("MSV") submitted a White Paper in the above-captioned proceeding entitled "Taking a Fresh Look at Public Safety's Spectrum Needs: Toward a Next-Generation Strategy for Public Safety Communications." MSV hereby submits the attached corrected version of this White Paper which supercedes the previously filed version. The corrected version makes clear on page 17 that while MSV's estimate of the additional per unit cost of a second chipset for a public safety user is more than the additional cost of the consumer ATC product, it is substantially less than it would be without the economies of scale resulting from the consumer deployment of ATC.

Please direct any questions regarding this matter to the undersigned.

Very truly yours,

/s/Jennifer A. Manner
